

# *Lake Ramsey Garden Club*

October 8, 2011

Board of Directors  
Homeowners Association of Lake Ramsey, Inc.

Dear Board of Directors:

We have recently formed a garden club that is open to all residents and property owners of Lake Ramsey. The members formed the Lake Ramsey Garden Club not only to improve our own personal gardening skills for our home landscaping, but we are also keenly interested in being instrumental in the beautification of our own Lake Ramsey community.

The results of a recent survey by the Homeowners Board showed that residents desire an entrance to our neighborhood that is attractive and reflective of the value of our homes here at Lake Ramsey.

The garden club would like to take the lead in the planning and implementing of beautification improvements for the areas of the front gate, the information sign, and the arbor garden in the green space. None of these areas is living up to its potential of being a beautiful asset to our community. The garden club would also like to aid our community by monitoring the playground for needed maintenance for the safety of our children.

The Lake Ramsey Garden Club respectfully requests funds that are set aside by the Homeowners Association for beautification purposes be available to the garden club for the purpose of improving our community landscaping. We believe our plans will add to the beautification and improvement of our lakeside community.

We fully understand that any plan or improvements would be subject to the approval of the Board of Directors of the Homeowners Association of Lake Ramsey.

Sincerely,

Darlene Parlipiano, President  
Lake Ramsey Garden Club
